

Prem here from Sacred Earth Music Australia. I wanted to express our deepest gratitude for the way you and your team hosted us at Kronhuset for our Sacred Earth concert. This is our second time visiting with you and both times our experience has been wonderful. It is not often you arrive to a venue and are greeted with so much warmth and professionalism. The concert ran so smoothly and we thank you for your attention to detail and your great work ethic.

I was saddened to hear that the future of this venue is under threat. I feel, as a touring International artist, the musical community and culture that surrounds Kronhuset are definitely worth preserving. I would definitely recommend this venue to our many touring artist friends from around the globe. I feel that Kronhuset is the perfect venue for concerts and a wonderful home for the Goteborg Wind Orchestra. It would be a huge loss to the cultural fabric of Goteborg if this venue was not preserved by the ruling powers of this beautiful city. In this fast paced modern world it is so important that these places exist and are preserved for our future generations of young musicians as well as the current musicians & technicians, who have dedicated their lives to offering us, the public, cultural beauty, passion and magical musical experiences that help to balance the craziness of this fast paced world. I believe that preserving the culture and community surrounding Kronhuset is of the highest priority.

Blessings and love from Prem Williams
